

CX12 S2 800X520 GEL

SMALL SIZE, GREAT MANOEUVRABILITY

CX12

The CX12 electric pallet truck is suitable for carrying loads on smooth or paved surfaces. Its small size and turning radius make it the ideal tool to work with in confined spaces, such as lorries or narrow aisles.

GEL

This version is equipped with GEL batteries allowing a high number of charging cycle, a tiller made with metal tube and ergonomic controls.

MANOEUVRABILITY

Thanks to the width B1, equal to the fork gauge, and the L2 measure of 360 mm, the CX12 electronic pallet truck is the ideal tool for handling pallets on lorries, in supermarket corridors and in any application where space is limited. In its category, this machine is therefore the best configuration in terms of frame width, weight and turning radius, guaranteeing great maneuverability and compactness.

TRACTION & SAFETY

Traction is granted by the biggest heavy-duty stabilizer wheels (100x40 mm) in the category, with heavy duty spring. All linkage connections done through bushings that increase stability and durability.

RELIABILITY

- Robust frame (metal motor wheel protection 6 mm thick) designed to guarantee maximum durability and resistance to torsion and heavy loads.
- Battery discharge indicator to allow easy management.
- Easy access to electrical components for maintenance.

TILLER AND CONTROLS

- Ergonomic tiller
- Luminous indicator for battery state control.
- Butterfly valves for traction control.
- Safety pushbutton with warning buzzer.
- "Tortoise" pushbutton for slow motion, which allows for the carrying out of operations with the tiller in vertical position.

ROLLERS

Standard configuration provided with single polyurethane rollers. Available tandem rollers as optional.
